

**WARNING - DISCONNECT POWER TO YOUR EVAPORATIVE COOLER TO AVOID ELECTRICAL SHOCK BEFORE PERFORMING ANY SERVICE ON IT. DO NOT EXPOSE THIS MEDIA TO SPARKS, OPEN FLAME, WELDING SPATTER, TEMPERATURES IN EXCESS OF 350°F, OR OTHER SOURCES WHICH MAY IGNITE THE PAPER. IF IGNITED THIS MEDIA WILL BURN RAPIDLY. EXTINGUISH FIRE WITH COPIOUS AMOUNTS OF WATER..**

Enclosed evaporative cooling pads are designed as replacement media for the window view MasterCool® model MW5500. Refer to owner's manual for proper installation instructions. White distribution felt faces up in frame. Either side of media panel can accommodate air flow.

**MAINTENANCE:** This evaporative cooling media is cleanable and scrub-able. The pads should be removed from the cooler for cleaning. Use a soft scrub brush to loosen heavy deposits. Loose dirt and debris can be removed by shaking the dried pad. Rinse sediment from the basin of the cooler and replace the pads.
